SKIN SCIENCE SOUL

NEW REMEDY OIL

soothing protective oil

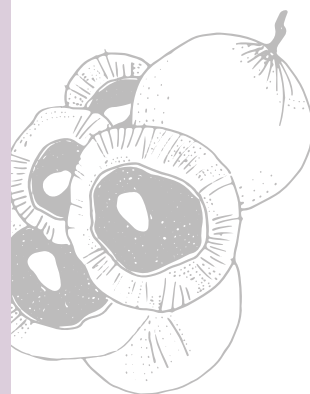

A highly concentrated formula of Marula and other vegetal oils. With no added fragrance, the oil contains up to 99% of natural-origin ingredienst, to reduce the amount of potentially irritant preservatives. The texture is rich, non-greasy, for optimal absorption.

KEY BENEFITS

- > Ideal as SOS localized treatment for the most sensitive and sensitized areas of the face.
- > Extra nourishing, soothing and protective to shield the skin from external aggressions. The oil can be used in conjunction with the cream.

localized
treatment

CREAMS

calm the skin
provide hydration
without occluding
the skin

MARULA OIL

This oil is extracted from the seeds of the Sclerocarya Birrea plant, indigenous to Southern Africa. It is known as the favorite tree of elephants as the branches, leaves and fruit represent their preferred food. The oil is rich in omega 9, tocopherols and phytosterols: it fortifies the skin and preserve the skin barrier thanks to the excellent emollient and protective properties.
