MUST-HAVES KIT

the best of the best for face and body

The Must-Haves Kit gives a look into five of the brand's favorite lines and a fan-favourite product from each. Featuring the Tranquillity™, Hydramemory, Remedy, Sublime Skin and Renight lines

From the Tranquillity™ line, the shower cream has remarkable hydrating properties, leaving the skin silky and pleasantly scented. The Hydramemory Cream with a light "sorbet" texture offers 24-hour hydration and leaves the skin with a feeling of freshness. The Remedy Defense Cream is ideal for sensitive and dehydrated skin to soothe irritations and give a barrier-effect texture. Recommended for anti-aging, the Sublime Skin Cream with Archi-lift™ technology nourishes, replumps, and softens wrinkles to boost face rejuvenation. Renight Cream with organic Goji Berry is ideal to contrast free-radical damage on the skin during the night's rest

Kit contains:

TRANQUILLITY BODY LOTION 50ml

HYDRAMEMORY CREAM 15ml

REMEDY DEFENSE CREAM 15ml

SUBLIME SKIN CREAM 15ml
